

K-Love & KJOL Radio both serve our community & my family in a huge way. If these stations or others serving this need in our cities & states are displaced by LPFM it would be disasterous. Just as other stations provide a service, these stations not only service our needs but up lift, encourage, heal wounded hearts. Not to mention the great music & programing they provide on a daily basis that are not available from other radio stations. Please keep these stations and others like them on our FM translators & NOT move them to the lower powered fm. Thank you for taking the time to include these comments in your decision.
